

AgBoss

GET THE JOB DONE!

Introducing the...

TORPEDO LEVEL

AgBoss Torpedo Level is light and versatile. The compact design makes it an ideal tool for levelling in any space. Because of its size, it fits into the side pocket of any trousers, so it can be with you at all times.

AgBoss Torpedo Level is portable enough to make your measuring work easy. The 23cm Torpedo Level has 3 easy to read leveling bubbles 45°/90°/180° for measuring. The color of the vial is an easy read contrast when measuring. The viewing window on top makes it easy to precisely read from any position.

The long magnetic edge uses advanced technology to enhance the magnetic force. It's convenient enough that you can freely attach the level measuring tool to any metal surface. You don't have to worry about it falling.

The AgBoss Torpedo Level ensures accuracy (1.0 mm/m) and is made of lightweight ABS, with a cover at both ends to prevent damage.

The AgBoss Torpedo Level will get the job done!
