AgBoss - Built Tough for this Land

AgBoss is a second-generation advanced manufacturing company with elite plastic and steel capabilities. Offering product design, marketing, and logistics, AgBoss partners in Agricultural, Lifestyle, and Commercial OEM products.

We serve diverse industries, including abattoirs, pet food, chemicals, and a broad range of agricultural and consumer goods. From concept to delivery, we translate your specifications into robust, scalable solutions. Whether you need high-precision components, durable stainless or steel fabrications, custom plastics, or integrated packaging systems, AgBoss meets stringent industry requirements.

Key strengths and capabilities:

- **Food Industry:** hygienic design, sanitary manufacturing, and surface finishing with corrosion resistance for harsh environments, aligned with food safety standards.
- **Chemical manufacturers:** chemical-compatible materials, containment and safety features, and robust corrosion resistance.
- **Agricultural OEM:** durable machinery components, irrigation and farming implements, and modular field-ready systems.
- **Commercial OEM:** end-to-end manufacturing from prototyping to production, with supply chain visibility and quality assurance.

We keep equipment best-in-class and boost efficiency by adopting new technology. Our facilities feature state-of-the-art plastic and steel lines, robotics, precision machining, and intelligent automation to shorten lead times while maintaining tight tolerances.

Your project matters. You can trust our professionals for design, rapid prototyping, scale-up manufacturing, and post-production support. We provide transparent governance, clear milestones, and ongoing communication.

LoadMaxx 1100 Bin

The AgBoss LoadMaxx 1100 is a heavy-duty, all-round collection bin ideal for industries ranging from meat processing, pet food and other industrial uses. With a massive 1100 litre capacity and a unique stackable design, it offers durability, efficiency, and safe handling in any busy industrial environment. Proudly made in Australia, it's built to take a beating and still perform.

- 1100 litre capacity
- Food grade polyethylene, heavy duty industrial design
- Designed for forklift rotation
- Stackable up to 4 high when empty
- Available in all HACCP colours
- Made in Australia

COLOURS AVAILABLE

SKU	DESCRIPTION	UOM	MOQ	CTN QTY	BARCODE
1	AgBoss LoadMaxx 1100 Bin	each	1	1	Not applicable
OPTIONAL ADD-ONS					
1	Stainless draining mesh	each	1	1	Not applicable
1	Outlets with bungs both sides	each	1	1	Not applicable
1	Ability to brand bin in Mould to produce irremovable marking	each	1	1	Not applicable

StackMaxx Bins - 800 & 1100

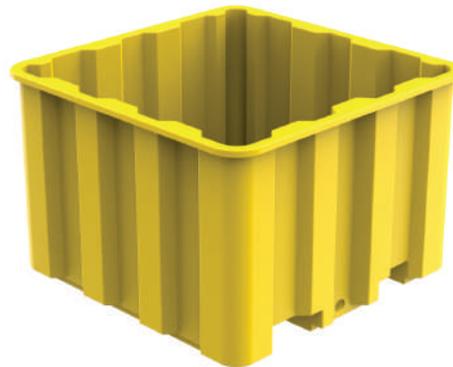

The StackMaxx range of collection bins has arrived! These bins are 1150 x 1150mm and are available 800 and 1100mm high. They are a truly “all-round” bin for a huge variety of industries. Roto Moulding provides that extra durability that can handle the knocks and bumps of any busy industrial setting.

Abattoirs, pet food, confectionary and medical waste transfer are a few industries where the StackMaxx bins have proven to be very popular. The StackMaxx bins separate themselves from other offerings by being stackable - with and without the lid, drainable via a 50mm bung and forklift rotating pockets.

Other extras are available to suit your specific needs such as inmould graphics, serial numbers, drain mesh, wheels etc.

- **800 & 1000 litre capacity - standard pallet footprint**
- **Food grade polyethylene, heavy duty industrial design**
- **Available in forklift rotation configuration**
- **Stackable with or without lids**
- **Available in all HACCP colours**
- **Made in Australia**

The AgBoss Kiewa Boot

The Kiewa Gum Boots will last 3 times longer than other PVC boots and come with a 12 Month Warranty. They are 25% more resistant to bacteria than other boots and are extremely resistant to chemicals.

The internal Non-Metallic toe cap provides protection to toes against material falls and shocks up to 200 joules force. Metallic toe caps can be provided also.

Internal Kevlar mid-sole protects underside of foot from sharps penetration such as nails, glass, metal parts, etc.

All models exhibit anti-static properties. Anti-static footwear should be used if it is necessary to minimize electrostatic build up by dissipating electrostatic charges, thus avoiding the risk of spark ignition of, for example, flammable substances and vapours, and if the risk of electric shock from any electrical apparatus or live parts has not been eliminated.

- **Anti-Bacterial Technology**
- **-40 deg Thermo-insulated**
- **40% Lighter than rubber & PVC boots**
- **Slip Resistant**

Disposable P2 Masks

The AgBoss P2 Cup Face Mask filters out the fine particles in the air when worn correctly. They form a tight seal around the face and reduce the exposure to smoke/poor air quality and associated poor health effects. Options with and without valve and with carbon filters.

- **Adjustable nose clip & bridge**
- **Large filtering surface area provides low breathing resistance**
- **Australian/NZ Standards - AS/NZS 1716:2012**

SKU	DESCRIPTION	UOM	MOQ	CTN QTY	BARCODE
